## FEATURES

1. Eliminates ropy brush & roller marks in elastomeric coatings.
2. Gives a professional finish in all elastomeric top coats.
3. Non Yellowing.
4. X-Tends open dry times.
5. Will do the work then exit the top coat when drying.

## BENEFITS

1. Contains no resins.
2. Biodegradable.
3. Assists in eliminating cross overlap marks when painting in warmer climates. Can Increase dose rate as required. (maximum 3 x 25ml per 15ltr).
4. Improves flow & levelling of all elastomeric coatings.
5. Low VOC.

*XIM Latex X-Tender does not affect the elastomeric and will not cause any yellowing, eliminates 'ropy brush/roller marks', keeps flash times open & promotes levelling on Hot Days.*

*X-Tender also improves Airless Spraying, eliminates 'dry spray' & makes cleaning gear easier - extending the life of modern day acrylic brushes.*

*X-I-M X-Tender is a bio-degradable product safer for our fragile environment and our futures.*
