

## TECHNICAL DATA

# Spray Gun & Equipment Cleaner

### DESCRIPTION

*Recommended uses:*

#### **PAINT REMOVER & SPRAY GUN EQUIPMENT CLEANER**

**Contains no methylene chloride, caustic or other harsh chemicals & easily cleans up with water.**

#### **DUAL ACTION COMMERCIAL STRENGTH FORMULA**

1. Spray tips, guns and other equipment parts (metal and plastic) can be soaked in the stripper/cleaner for effortless paint removal and cleaning.

2. When sprayed through a spray gun and paint sprayer, it is effective cleaner. It can also be used to flush lines.

**WILL NOT CORRODE METAL PARTS AND WILL NOT PIT ALUMINUM**

**COVERAGE: 200sq.ft./gallon.**

COLOR: Clear  
ODOR: Mild

PACKAGING/CONTAINERS:  
Available in 32oz., 1gal.

### TECHNICAL DATA

*Physical Data:*

**CONTAINS:** A proprietary blend of biodegradable surfactants, detergents, and emulsifiers, in a water-based solution. No petroleum solvents, bleach or ammonia.

**FLASH POINT:** N/A  
**SHELF LIFE:** N/A  
**VOC:** 0

### APPLICATION

*Parts Cleaner/Stripper Directions:*

Can be used on metal, plastic, and rubber parts to remove common household paint and varnish (water or oil-based) including latex, alkyds, stains, enamels, lacquers, clear paints, and also epoxy. The cleaner should be used in a container made of heavy-duty polyethylene, steel, or stainless steel, and a wire basket or screen placed at the bottom of the container will be helpful in removing parts from the stripper solution.

Pour cleaner into your container to the desired level, based on the amount of parts to be stripped. Stir thoroughly with mixing stick or paddle before use. Immerse gun or parts to be stripped in the cleaner. Stripping time will depend on type of paint and number of layers to be removed, and will vary from minutes to overnight. To determine if items have been stripped, periodically lift parts out of container. It may be necessary to remove loosened paint with a wire brush or scrub pad, and this can be done over the dipping container, or separate container. Once complete, the paint will separate from the parts and fall to the bottom of the container. Final clean-up can be completed by using compressed air or water wash.

### AVAILABILITY

Krud Kutter brand products can be found in the paint department of most home improvement, hardware, and paint stores in the US and CANADA. For a list of retailers please: visit [www.krudkutter.com](http://www.krudkutter.com) or call 800-466-7126.

### CAUTION

Eye and skin irritant. In case of contact with eyes or skin, flush with water for 15 minutes. If irritation persists, seek medical attention. If swallowed, take large amounts of water. Do not induce vomiting. Get medical attention. Material Safety Data Sheet available.

**DO NOT MIX THIS PRODUCT WITH ANY OTHER CHEMICALS.**

**KEEP OUT OF REACH OF CHILDREN.**
